

Authorization for the Mythic Amplification Bot

Controller: Asociación Civil AlterMundi, CUIT 30-71498982-7, Las Acacias S/N, José de la Quintana, Departamento Santa María, Córdoba, Argentina. Contact: info@altermundi.net.

1. What you authorize

Access is reserved for people whose registration records acceptance of the terms presented to them. By replying **ACCEPT**, you confirm that prior acceptance and give this additional authorization, required to receive your Mythic Amplification.

You authorize AlterMundi to receive, store, and process your identity and contact data, written text or audio, transcription, generated results, and necessary technical data to transcribe the narrative; produce a symbolic amplification; generate an associated image; send the result by email and WhatsApp; and preserve the experience in your **Projection History**.

Projection History supports continuity across participations. It is not a medical record, diagnosis, or psychological profile.

2. Infrastructure and providers

Some data will be received, stored, or processed through third-party infrastructure inside or outside Argentina. Those services are governed by their current terms and policies:

- [WhatsApp terms](#) and [privacy](#)
- [Grok terms](#) and [privacy](#)
- [DeepSeek terms](#) and [privacy](#)
- [MiniMax API terms](#) and [privacy](#)
- [Google terms](#) and [privacy](#)

The authorization includes the communications and transfers required for those purposes. AlterMundi remains the controller and contact for this service.

3. Scope and limitations

The amplification is automatically generated symbolic content and will use the same language as your submitted narrative or audio. It may contain errors. It is not medical or psychological care, diagnosis, treatment, professional advice, or an emergency service.

This authorization excludes publication, sale, advertising, research, testimonials, datasets, and model training. Any such use would require separate authorization. Please avoid unnecessary identifiers of other people.

4. Your choice and rights

Acceptance is voluntary. Declining prevents use of this bot but does not alter prior registration or participation. You may request access, correction, updating, or deletion, or withdraw for future processing, at info@altermundi.net.

The data covered by this authorization will be retained for **six (6) months from the date you submit your narrative**. After that period, it will be deleted, except for any minimum record that must be preserved to document acceptance, withdrawal, or a legal obligation.

The Agency for Access to Public Information, as supervisory authority for Law No. 25,326, may receive complaints and claims concerning breaches of personal-data protection rules.

5. Acceptance

After receiving this document, reply **ACCEPT** to authorize version **bot-v7**, or **DECLINE** if you do not agree.
